

## Vended Top Load Washer with Galaxy™

At Huebsch®, our priority is making commercial laundry equipment that's perfectly aligned with your business philosophy. In other words, because you believe that profit is the inevitable result of superior efficiency, durability, simplicity and service, that's exactly what we deliver.

### LOW WATER USE

Huebsch top load washers offer owners ultra-efficient cycle selections which average just 28 gallons of water consumption per cycle.

### HIGH SPIN SPEED

With an industry-best final spin of 710 RPM, Huebsch top load washers remove more water from loads than many competing models. The end result is reduced drying times for customers and lower utility consumption for store owners.

### HEAVY-DUTY POWER

Our top load washer is powered by a heavy-duty 1/2 horsepower motor. The washer performance is further fortified by an automatic balance system, which ensures cycles aren't interrupted by unbalanced loads.

### UNMATCHED DURABILITY

Built with premium materials and tested to meet the demands of the harshest environments, these commercial-grade machines deliver reliable, efficient operation load after load—and they're backed up by Huebsch's standard three-year warranty.\*

### NETWORK TECHNOLOGY

Huebsch top load washers with Galaxy™ 600 controls are now equipped with network-ready capabilities and network board installations.

\*Parts only, labor not included.  
See Huebsch Warranty Bond for specifics.

### GALAXY™ 600 CONTROLS

Integrating Galaxy 600 controls allows for intuitive operation and simple programming throughout your store with revenue-boosting options. Better yet, it means your vended top load washer is Huebsch Command™ compatible.

- Capacitive Touch buttons are durable, inside and out, and reliable for years of use without looking worn
- White LED lights on buttons
- Integrated Wifi
- NFC allows programming using your phone/tablet, Android only

The Huebsch Command™ Technology Suite changes the way you'll run your laundry business. Get unprecedented power over all your business data—

financial, operational, customer, service machine and maintenance—in a single 360-degree control center, enabling you to make informed business decisions and be in command of your business's growth.
